

# For Sale

## Niton XLi Portable XRF Analyzer

**Model # XLi 808QW**  
**Set up for All Alloys Mode.**

**Purchased in 2003 for approx \$38,000-40,000**

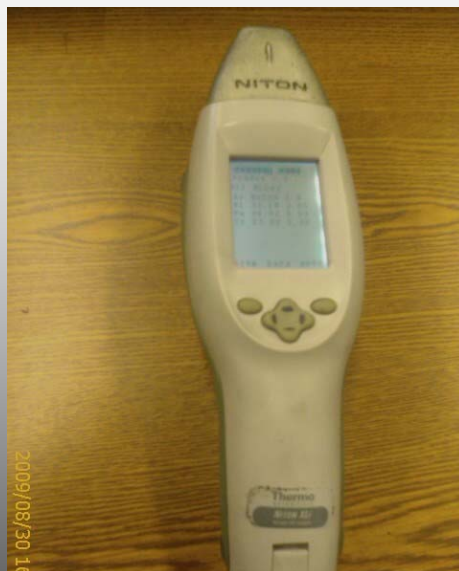

**Works great. The finger trigger is a little soft, may need to be replaced in future.**

### Website Info:

The handheld Thermo Scientific Niton® XLi x-ray fluorescence (XRF) analyzer offers the user a choice of radioisotope sources in an ultra-portable design to meet the demands of the customer's application. The smallest, lightest (only 1.7 pounds/0.8 kg!) XRF analyzer on the market features point-and-shoot operation and an enhanced ergonomic form-factor with perfect weight balance for applications such as lead paint inspection, and provides value choices for metal alloy, mining, environmental and archaeometric applications. It is unmatched in its ability to fit into tight spaces for Positive Material Identification (PMI), especially through small-diameter inspection plugs.

With pioneering safety features and an available 12-foot telescoping extension pole, the Niton XLi fits in places no other XRF analyzer can reach.

**Price \$15,000.00**

**Excellent Unit!**

**All Documentation Included and registration will be transferred to new owner.**
